

CHANGES TO AATB STANDARDS FOR TISSUE BANKING

SECTION D - ACQUISITION OF TISSUE: AUTHORIZATION, INFORMED CONSENT, DONOR SCREENING, AND TISSUE RECOVERY AND COLLECTION

D5.000 RECOVERY AND COLLECTION POLICIES AND PROCEDURES

Current (13th edition)

D5.800 Post Collection Packaging

- (R) Semen shall be collected into a pre-labeled sterile collection container. The collection container shall be labeled with the donor or client depositor identification, date, and time of collection. Oocytes shall be collected into a primary collection receptacle pre-labeled with the donor or client depositor identification. If the tissue requires transportation to the *Processing* laboratory, it should be transported within a reasonable time period as defined by the *SOPM*, so as to maintain the functional integrity of the tissue.

(with amendments)
